

Lithium Battery Safe Storage & Disposal

SORT

Separate lithium batteries from other battery types, trash, and recyclables.

STORE

Store lithium batteries in a cool, dry place, avoiding direct sunlight or extreme heat. Keep batteries away from anything that can burn.

TAPE

Tape terminals with packing tape or duct tape or individually bag each battery. Battery terminals that touch metal surfaces or other batteries can spark, causing fire or explosion.

DISPOSE/RECYCLE

Do not put lithium batteries in your home trash or recycling. Instead, use a battery recycling service or bring them to a battery recycling facility.

Proper handling and disposal of lithium batteries prevents fires
